RAPID MICRO BIOSYSTEMS, INC.

ENVIRONMENTAL POLICY

(As of May 1, 2026)

Rapid Micro Biosystems, Inc. (the "Company") is committed to conducting our business responsibly, and as part of this commitment, we take efforts to understand and manage our environmental impacts. We intend to seek ways to reduce our operational environmental footprint, while working alongside our key stakeholders including employees, suppliers, and customers to mitigate impacts where our business and relationships may interface with the environment. We aim to achieve this by:

- Complying with all applicable environmental laws and regulations.
- Reducing, where practicable, our use of natural resources including water.
- Preferring renewable energy where practicable with the aim of reducing our overall greenhouse gas ("GHG") emissions.
- Reducing our emissions of non-GHG gases.
- Responsibly reducing, managing and disposing of waste generated in operations and taking measures to prevent environmental pollution.
- Evaluating the environmental impact of our product and seivice offerings and working to lower associated impacts throughout their lifecycles.
- Continually monitoring and working to minimize our impact on the environment.
- Promoting environmental awareness among our employees on environmental impacts of our operations.
